

# SAVANNAH, GA

### Terminal Type – Multi-Purpose Bulk, Dry Bulk and Liquid

Port Location: 32 ° 04' 45.66" N 81° 03' 49.00 W  
Miles from Savannah Sea Buoy: 12.5  
Approximate Pilotage: 2.5 hours  
Air Draft Restrictions in Channel: 180' MLW  
Dock Height: 15 Feet  
Tide: Avg. 7.5' MLW  
Physical Address: 136 Marine Terminal Drive  
Phone: 912-236-1531

Turning Basin: Fig Island 900' x 100' X 42'  
Dockage Rate/Day: \$0.235 GRT (Lloyds)  
Terminal Area: 25.5 Acres  
Rail Service: CSX Transportation  
Adjacent Expansion Properties: 55 Acres  
Fresh Water Available Upon Request  
Contact: Pat Gnann, Vice President  
Fax: 912-235-4837

### Detail of Berth Characteristics and Capabilities

Berth #	Length	Apron	Deep Draft	Adjacent Warehouse Availability	Adjacent Open Storage Pads	Vessel Length Restrictions	Vessel Breadth Restrictions	Air Draft Restrictions @ Dock
2	700'	Bulk T	36' MLW	2 X 20,000 sf	5	750'	125'	63'
3/4	700'	Liquid Bulk C	32' MLW	86,500 sf	N/A	750'	115'	N/A

### Details of Operating Capabilities

Labor Status	Non-union, skilled work force
Automated Woodchip Loading System	1,000 GMT per hour loading capabilities to ocean vessel, 225 GMT per hour receiving capability from truck, and 300 GMT per hour receiving capability from rail
Automated Discharge System for Misc. Bulk	Receiving Hopper and Transfer System capable of vessel unloading production from 300 tons per hour (grab discharge) to 2,000 tons per hour (self-discharge systems)
Self-Discharging Vessel Capabilities	Discharge from Vessel direct to Pad #1 at CQD from Vessel to Pad - #1 via stacking systems at 1,000 tons per hour
On-Site Rail Track Storage	Storage space for 45 standard woodchip gondola cars, no standard unit train capability
Open Storage Pad Capabilities	5 Storage Pads totaling 12 Acres
Equipment (Rolling Stock)	4 Woodchip Pushers, Dozers, Front-End Loaders and Specialty Chip & Wood Pellet Handler Equipment to handle any type of bulk product
House Trucking Capabilities	In-house truck capability to support local and line haul delivery in tandems, long bed dumps.
Grabs	2 X 10 cu. m. Smag Single Line Remote Grabs, 1 X 8 cu. m. Anvil Single Line Remote Grab, 1 X 5.5 cu. m. Anvil Trip Bucket
Typical Commodities	Wood chip/pellets, cement, gypsum, aggregate, bauxite, slag, coal and fertilizer
Hours of Operation	Receiving and loading Monday – Friday, 0700-1600 or as requested; vessel ops 24 hours per wwd
